Hi Jill:

We had a good mtg with the Coastal folks yesterday!

The easiest way to construct your proposed alteration to the median as part of our Bike project and avoid potential problems is if your engineer submits the schematic drawing which shows the median alterations to us and request us to modify our Bike engineering plans to INCLUDE the changes. We will forward this request to our consultant design firm and will ask them to send us a fee proposal to revise the developed engineering plans to accommodate your request, and a construction cost estimate for YOUR CHANGES. Once we receive this info, we will share it with you and you need to provide us the funds FOR BOTH: revising Engineering plans as well as construction. You need to provide us the funds for design right away, so that the design can proceed. The funds for construction need to be provided to us prior to advertisement for the construction.

Pls let me know if you have any other suggestion and/or questions.

Elias

Hi Jill, Elias, and Salim,

I am available for a meeting in RPV or at the Coastal Commission's Long Beach office any afternoon in early January except the 3rd . If you would like the Coastal Commission's South Coast District Manager Teresa Henry to sit in, which would be a good idea, her availability is limited to our Long Beach office any afternoon January 9-12. Let me know what day and time works for you.

Happy holidays,

–

Thanks Jill.

Zack: I would appreciate if you schedule a mtg as requested by Jill. It will be a great pleasure to meet you in person and coordinate these projects.

Thanks in advance, and happy holidays:

Subject: Tract 50666 - Trump National Los Angeles

Dear Zach,
As you may already be aware, Trump National has recently received sign-off on its proposed street improvements/ configuration related to its development of Tract 50666 by the City of Rancho Palos Verdes' Traffic Safety Committee. As the City is preparing to embark upon its safety improvement of PV Dr. South as part of its bike lane project, a project for which I understand has the support of the Coastal Commission, we are hoping to work in a coordinated effort with the City to begin improvements on PV Dr. South to ensure that through collaboration our street improvements and the bike lane project are undertaken in a manner most efficient to all involved. In light of the City's fast approaching deadline to begin the bike lane project, we would like to quickly initiate our coordinated efforts. In this vein, we request a meeting with you and any other appropriate Coastal staff to discuss our plans. Accordingly, please let us know a convenient time for such a meeting after the holidays.

Best regards,

Jill A. Martin
